

Why we recommend managed hosting for your WordPress site(s)

The price you pay for managed hosting is 100% worth it compared to bottom-of-the-barrel shared hosting solutions! Here are five reasons why managed hosting is the way to go:

1

EVERYTHING IS TAKEN CARE OF FOR YOU

Upgrades, security, migrations, you name it – we'll handle it. In the long run, this absolutely winds up saving you time, money, IT resources, and so much more.

2

YOUR SITE GETS ITS OWN DEDICATED RESOURCES

With our platform (powered by Google Cloud!), you don't share resources like you do on shared hosting. This means no one's site will interfere with your performance or security; it's safe and sound!

3

MANAGED HOSTING IS REALLY FAST

We tune servers for optimal WordPress performance and configure all the caching, so you don't have to spend time worrying about site speed!

4

TOP-NOTCH SECURITY

We do our best to stay on top of the latest security vulnerabilities and reduce the possibility that your site will be compromised. And IF your site is somehow compromised, we'll fix it for free.

5

WE'VE GOT YOUR BACK

When you call us, you'll get a real-live human on the other end, rather than dealing with a robot! And if you have any technical questions, we will find the answer.

So, in a nutshell, all of this means you can stop worrying about the servers and the hosting and the hackers and your site performance and instead, spend that time running your business. Huzzah! :)
